PROFESSIONAL SUMMARY

Motivated and results-driven Computer Science undergraduate at Vellore Institute of Technology (VIT) with a strong academic record (CGPA 9.11) and a passion for building impactful software. Actively seeking internship opportunities in Web Development and Python Development to apply technical skills in real-world engineering projects.

Skilled in full-stack web development, data structures & algorithms, and object-oriented programming. A consistent problem solver with 350+ LeetCode problems solved and proven ability to independently design, develop, and deploy production-grade applications.

PROJECTS

Personal Portfolio Website

React Vercel JavaScript CSS3 HTML5

- Designed and developed a fully responsive personal portfolio website from scratch using React.js with functional components and hooks.
- Implemented a clean, mobile-first UI with smooth navigation, project showcases, skills section, and a working contact form.
- Deployed on Vercel with automated CI/CD pipeline — any push to main triggers an instant production deployment.
- Optimized for performance and SEO, ensuring fast load times and a professional web presence.

Real-Time Weather Application

JavaScript REST API OpenWeatherMap HTML5 CSS3

- Built a dynamic weather application that fetches and displays live weather data for any city worldwide using the OpenWeatherMap API.
- Implemented asynchronous JavaScript (async/await) with robust error handling for failed API calls or invalid city names.
- Designed a responsive and intuitive UI that dynamically updates weather icons, temperature, humidity, and wind speed.
- Applied mobile-first CSS design principles to ensure consistent experience across devices and screen sizes.

EDUCATION

B.Tech in Computer Science & Engineering CGPA: 9.11 / 10

Vellore Institute of Technology (VIT), Vellore

July 2024 – Present · Secured 2nd Rank in Semester 1 with 9.7 CGPA

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Computer Architecture, Digital Electronics, Microprocessors & Microcontrollers.

KEY ACHIEVEMENTS

- Secured 2nd Rank in B.Tech CSE department during Semester 1, achieving a CGPA of 9.7 / 10.
- Maintaining a strong cumulative CGPA of 9.11/10 across all completed semesters at VIT
- Solved 350+ Data Structures & Algorithms problems on LeetCode, covering arrays, trees, graphs, dynamic programming, and more.
- Independently built, deployed, and maintained multiple full-stack web development projects from concept to production.
- Actively practicing competitive programming and staying up-to-date with modern web technologies and industry trends.

TECHNICAL SKILLS

Programming Languages

Python Java C C++

Web Development

React JavaScript HTML5 CSS3

Database & Query

MySQL SQL Relational DBs

Dev Tools

Git GitHub VS Code Vercel

Core CS Subjects

DSA OOP DBMS OS CN

Hardware & Embedded

Arduino Verilog 8051

MATLAB

Concepts

REST APIs Machine Learning
AI Basics Async JS

CERTIFICATIONS

Python Essentials 1
